Subject: Dimock Residential GW Site Preliminary Results

Preliminary results for the Dimock Residential GW Site are included in the attachment. Included are results on the priority constituents from all labs, where available.

Updates:

Added methane entries (all indicated as below trigger level).

Results at or above trigger levels (updated since 3/15/12):

No new results at or above trigger levels.

Correction to yesterday's email on results at or above trigger levels:

Lithium: Two samples had lithium results above trigger levels (HW60 and HW56) - missed writing this in yesterday's email.

Report Files:

A separate email will follow with final reports that have been placed on the R03FTPUser site in directory EPA Laboratory.

Please contact me at 410/305-2732, or Robin Costas 410/305-2659, if you experience delivery problems with this report. A copy of this e-mail will be retained in the case file.
